**Snowman**  
 Show Jumping Hall of Fame  
 Jumper

The horse with the ultimate rags-to-riches story! In 1956, riding instructor Harry de Leyer went shopping for potential school horses in Pennsylvania. Purchased by de Leyer for \$80 as he was being loaded into a van bound for the slaughterhouse, the 7-year-old gelding became a hit with his children, who dubbed him "Snowman." But when sold to a local doctor, he kept jumping fences and returning to de Leyer. Recognizing his talent, de Leyer began training him for the show ring. Soon, Snowman was beating the country's best jumpers everywhere he went.

Snowman was champion at the 1958 National Horse Show, winning the stake there the following year. In 1958 and 1959, he was named both the American Horse Shows Association (now the USEF) Horse of the Year and the Professional Horsemen's Association Champion. Breyer's Snowman is being brought back by fan request!

**Sam**

**Double Olympic Three-Day Event Gold Medalist**

In 2012, Germany's Michael Jung and his champion eventing horse, a 2000 Württemberg gelding named Sam, made eventing history when they became the first horse and rider ever to hold Olympic, European and World titles simultaneously!

Their winning streak started at the 2010 FEI World Equestrian Games, where they finished first to claim the individual World Championship. In August 2011, Jung and Sam went on to compete in the FEI European Eventing Championships at Luhmühlen, Germany and brought home their first European World Championship, in addition to leading Germany to a team gold medal.

Entering the 2012 Olympic Games in London as World and European Champions, Jung and Sam jumped two clear rounds in show jumping and earned the individual gold for eventing. This pair's incredible performances also helped team Germany win their second consecutive Olympic team gold medal in eventing!

**Pinto Sport Horse**

Sport Horses are bred to perform in the Olympic disciplines: eventing, dressage and show jumping. Their size, talent and athletic ability make them a natural fit in these challenging events! Thoroughbreds are often used in the breeding of Sport Horses, in addition to Warmbloods and Warmblood crosses. Occasionally, Warmbloods are crossed with colored horses, such as Paints, Pintos and Appaloosas, to create a Sport Horse of color! This sleek pinto Sport Horse will add a colorful splash to the show ring!

**Trooper**

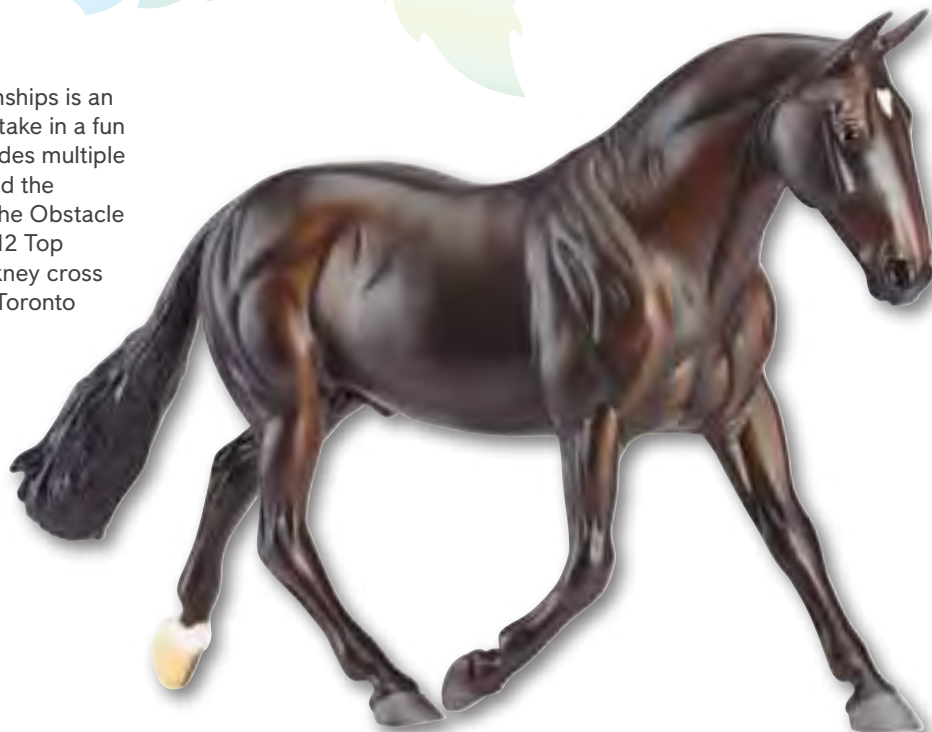

**North American Police Equestrian Championships Top Horse**

The North American Police Equestrian Championships is an annual event where law enforcement officers partake in a fun and challenging two-day competition which includes multiple classes: Equitation, Uniform, Western Division and the crowd favorite, Obstacle Course. The winner of the Obstacle Course is known as NAPEC's Top Horse. The 2012 Top Horse was Trooper, a 9-year-old Percheron/Hackney cross gelding, ridden by Constable Gregg John of the Toronto Mounted Police Department, Toronto, Canada.

**Lindsay's Faith**

**Winner - America's Favorite Trail Horse**

Born in the wilds of Wyoming, Lindsay's Faith was gathered by the Bureau of Land Management shortly before she turned six. She was selected to participate in the Mustang Heritage Foundation's inaugural Supreme Extreme Mustang Makeover, an event where 6-year-old mustangs are adopted by trainers who have only 100 days to gentle and train them, and then show off their new skills in an exciting live competition in front of hundreds of spectators.

Adopted by trainer Mary Miller-Jordan, Lindsay's Faith made it to the finals of the Supreme Extreme Mustang Makeover. After the competition, the pair began competing in American Competitive Trail Horse Association events, and was selected to participate in the 2011 America's Favorite Trail Horse competition, the "American Idol" of the trail horse world, where fans voted Mary and Lindsay's Faith the winners!

KOR GEOMAG is a patented new system composed of 26 magnetic elements freely rotating around a hollow metal sphere. Several plastic covers form an outer layer surrounding the KOR GEOMAG, turning it into an elliptical shape. Twisting movements of the 26 elements generate unlimited creations. Specific accessories are added onto the covers to generate fantasy characters which are divided into two main families: "Proteon" and "Tazoo".

# PROTEON

Based on five characters with differing rocky, swampy and volcanic native environments. These characters are differentiated by the color of their covers and masks. There are three developmental stages that give life to different characters: from AKI, in the more simple stage, to TAUREX, intermediate stage and BLATTA, VULKRAM and SWOMP, who have evolved to the advanced stage.

# Red Toolbox Play Day

**RED**  
TOOLBOX

Play Days are a great way to introduce your youngest customers to Red Toolbox, an innovative concept in do-it-yourself activities! With hammers ergonomically designed for small hands, parents and their children can build a Truck or a Boat! Hosting a Play Day is a great easy way to bring Red Toolbox products to life.

Play Days are designed to offer a complete Red Toolbox experience for 12 kids.

## Play Day Kit includes:

- + 12 Miniature Kits – 6 Boats and 6 Trucks
- 6 Hammers to share
- + 6 bottles of glue to share
- 12 Plastic Red Toolbox Hardhats

Kits are available in increments of 12.  
Separate additional hammers, glue and hardhats are available.

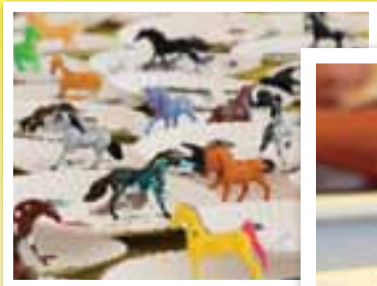

## Bring the Fun Home!

Retailer is required to purchase, at minimum, 6 Kits to accompany their Play Day. Junior kits are designed for the youngest children [4 years] and reinforce the skills of assembly, hammering and gluing – all the same skills they will practice at your Play Day! Level 1-3 projects reinforce new skills of sawing, fastening and drilling to create more complex projects for children 8+.

## Host a **FREE** Play Day!

Buy into the Apprentice or Master Carpenter level of our "Red Toolbox DIY Programs" to receive up to 2 free Play Days for your store. Ask your sales representative for details, or contact our sales office!
